**Slim** compact stylish the COOLPIX S220 wants to be carried everywhere. It's ultra slim body just 18mm thin easily slips into any one's life style.

Advanced easy to use features such as Scene Auto Selector, that automatically selects one of six scene modes, and 4 way VR image stabilization combined with 10 megapixel resolution and 3x zoom-NIKKOR lens put's the COOLPIX S220 in a category all it's own.

## EXPEED™

Nikon's smarter approach to digital imaging technology. From image capture to processing, Nikon's comprehensive EXPEED digital imaging concept encompasses the entire picture-taking operation. EXPEED is much more than a processing engine; it is a revolution in digital photography.

### 4 way VR Image Stabilization minimizes the effects of camera shake for sharper results

VR Image Stabilization

Motion Detection

High Sensitivity

- Nikon's **Electronic VR image stabilization** compensates for the effects of camera shake by adjusting the shutter speed and ISO to reduce image blur.
- **Motion Detection** automatically detects a moving subject and adjusts shutter speed and the ISO setting to compensate for camera shake and subject movement.
- **High ISO 2000** capability helps give you sharper results when shooting in low light or capturing fast-moving subjects.
- Nikon's original **Best Shot Selector** automatically takes up to 10 shots while the shutter is pressed and saves the sharpest image.

### Nikon's Scene Auto Selector

Scene Auto Selector

Automatically recognizes the scene and selects from one of six scene modes for best results. The COOLPIX S220 will choose, Portrait, Night Portrait, Close-up (macro), Landscape, Night Landscape or Backlight mode.
