Stability Advanced - Images Enhanced

without vibration reduction

with vibration reduction

You can shoot sharper, clearer and without blur with Nikon's ingenious Vibration Reduction. Detects and corrects for camera movement to give you rock-steady results time after time.

NEW One-Touch Portrait
Perfect portraits at your fingertips!

With the One-Touch portrait button, it's easier than ever before to get great-looking results. Your shortcut to three unique innovations, it offers instant access to Face-Priority AF and In-Camera Red-Eye Fix™ for optimized image capture and lets you transform exposure after the fact with Nikon's powerful D-Lighting advantage.

5x Optical Zoom-Nikkor Glass Lens
High quality lenses deliver high quality pictures.

38mm
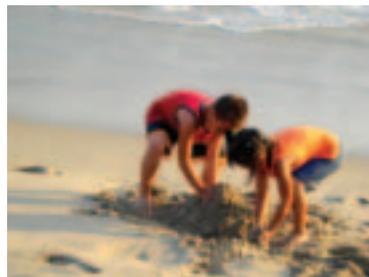

105mm

190mm

The Zoom-Nikkor Glass Lens gives you the power of a 5x optical zoom lens, 38mm-190mm (35mm equivalent), plus 4x digital zoom equals 20x zoom range. Macro capability lets you get as close as 1.6 inches. This combination is supported by Nikon's world-renowned optical technology delivering crisp, clear images.

Nikon In-Camera Innovations
Makes taking great pictures effortless.

In-Camera Red-Eye Fix™ Automatically detects and fixes most typical occurrences of red-eye. You may never see red-eye again.
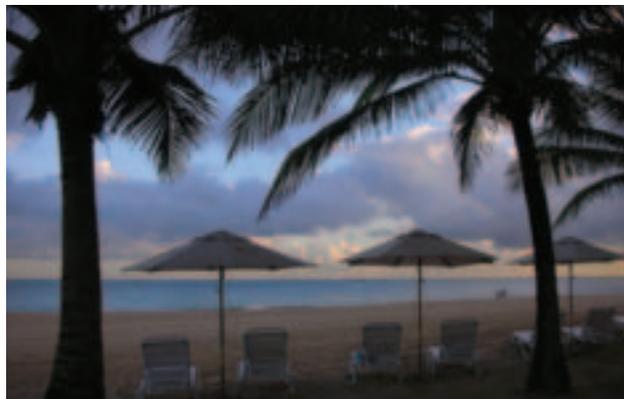

D-Lighting In playback mode, D-Lighting will compensate for underexposed images or insufficient flash by automatically adding light and detail to selected shots where needed — without affecting properly exposed areas.
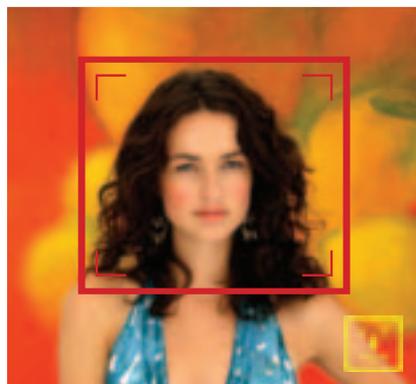

Face-Priority AF
Automatically finds the subject's face and focuses on it to ensure superb portraits with crisp focus.

In Camera Cropping
Allows you to crop out the part of the image you don't want and keep the part you like.

Best Shot Selector
enables the camera to take a series of photos and automatically select the one with the sharpest focus.

Saturation Mode
allows you to control the color saturation.

Voice Memo Function
records up to 20 seconds of sound that can then be attached to an image.

Noise Reduction Mode
minimizes digital artifacts in long exposures.

Blur Warning
alerts you to a blurry image.

Movie Recording with Sound
allows you to record movies in three modes; TV movie size (640), small size (320) and smaller (160) for extended recording or internet usage.
