# World's Longest Battery Life with 1000 Shots

## Key Features

**Easy Auto mode** for great pictures – anytime!

**7.1 Megapixels** for stunning prints as large as 16 x 20 inches

**3x Optical Zoom-Nikkor Glass Lens** gets you close to the action

**Incredible, Bright 2.4-inch LCD** makes it easy to view and share pictures

**Capture 1000 shots** with the included Energizer® e<sup>2</sup>® lithium AA batteries

**Adjusts up to ISO 1000** to keep shooting even in lower light

**In-Camera Red-Eye Fix™** automatically fixes most instances of red-eye in the camera. You may never see red-eye again

**Face-Priority AF** – Nikon's face-finding technology that automatically focuses on faces

**D-Lighting** rescues dark or backlit images by improving brightness and detail where needed

Imagine being able to shoot pictures without the worry of missing that incredible moment because your batteries have died? With the COOLPIX L14 and the included pair of Energizer®e<sup>2</sup>® lithium AA batteries you will never miss that moment.

## Dedicated Shooting and Playback Buttons

A press of the dedicated buttons realizes quick and intuitive mode switching. Shooting settings can be made via the Shooting mode button.

## Easy Auto Mode

Easy Auto mode makes photography even easier by taking control of settings, so you simply turn on the camera and shoot without worrying about them.

## 7.1 Effective Megapixel Clarity

An impressively high megapixel count delivers pictures with true-to-life color and high-level detail. What's more, it means images can be significantly enlarged, yet still look absolutely stunning.

## AA-size battery compatible for power replenishment anywhere

Compatibility with AA-size batteries, which are widely available around the world, means users can go on shooting virtually anywhere without worrying about recharging or running out of power.

## ISO 1000 Capability

Better pictures in lower light

Accurately measuring available light, the COOLPIX L14 automatically selects the best sensitivity setting. And with an impressive sensitivity range up to ISO 1000, it's easy to take great-looking pictures in low light conditions.

## Nikon In-Camera Innovations Makes taking great pictures effortless!

**In-Camera Red-EyeFix™** This in-camera feature automatically fixes most typical occurrences of red-eye.

### D-Lighting

Compensates for underexposed images or insufficient flash by automatically adding light and detail to selected shots where needed, without affecting properly exposed areas.

Simply better portraits

**Face-Priority AF** Automatically finds and focuses on people's faces to ensure superb portraits with clear, crisp focus.
