A colorful life deserves clearer memories
High resolution with 24.2 effective megapixels, and a high-quality lens to match

Experience the incredibly high image quality that you’ve been dreaming of. Combining 24.2 effective megapixel definition with Nikon’s all-new DX-format imaging sensor and the superior optical performance of NIKKOR lenses, the new Nikon D3200 brings you exceptional pictures with smooth color gradation and Full HD movies. Easy to hold and simple to use, this exciting, perfectly balanced combination of lens and camera is designed specifically to make the joy of high-quality D-SLR photography available to all.
At the heart of the D3200 is a newly developed Nikon DX-format CMOS image sensor utilizing 24.2 effective megapixels for pictures with incredible detail, as well as the freedom to enlarge your images or crop them to your preference. The camera’s image sensor has a wide light sensitivity range, going as high as ISO 6400* and permitting the capture of excellent images even when the light is low. The driving force behind these advancements is the high-speed, high-performance EXPEED 3 image-processing engine — the same as that used by the Nikon D4 flagship camera — transforming digital data into superior quality images with smooth color and spectacular detail.

Other Nikon advantages include a 420-pixel RGB sensor that provides input for Nikon’s exclusive Scene Recognition System. When taking pictures, each scene is analyzed and the focus, exposure, and white balance are automatically adjusted to ensure optimum results. Last but not least, superior image quality requires superior optics: the Nikon D3200 works with an extensive range of NIKKOR lenses, the same lenses used by experienced photographers around the world to get the most out of their Nikon D-SLR cameras. Add up all of the advantages and you can see why the Nikon D3200 is an excellent choice for experiencing D-SLR photography.

* ISO range can be raised as high as HI 1 (ISO 12800 equivalent), giving you more options in extremely low-light conditions.

The secret behind beautiful images: Nikon innovation
Step-by-step instructions for incredible images: Guide Mode

Are you new to D-SLR photography? The D3200 makes it easy to take the pictures that you’ve always wanted. Step by step, Nikon’s Guide Mode walks you through the process of set-up, shooting, viewing and deleting. Simply select Easy operation for help with taking pictures of the most common situations and subjects, such as Close-ups or Portraits. Choose Advanced operation for more creative options, such as Soften backgrounds or Freeze motion. The helpful Assist images provide visual reference examples in order to illustrate the expected results, and help you to better understand how to achieve the type of images you want.

Guide Mode provides step-by-step assistance with taking pictures

Select an operation

1. Select an operation
2. Select a shooting method
3. Select and confirm the scene
4. See an explanation of photo techniques
5. An example Assist image appears with the adjusted setting values
6. Choose from: Use the viewfinder, Use live view or Shoot movies

Easy Operation

Close-ups
This setting allows you to take pictures of small children discreetly by reducing shutter noise and turning off the flash.

Sleeping faces

Select this mode and the camera automatically optimizes your settings appropriately for shooting close-ups of flowers and other small objects.

Advanced Operation

Capture reds in sunsets
Select this option for dramatic sunset shots. The white balance is adjusted to emphasize the warm tones of the setting sun.

Freeze motion (people)
If the subject is moving, the camera suggests which faster shutter speed is best to avoid motion blur.

Easy operation menus
- Auto
- No flash
- Distant subjects
- Close-ups
- Sleeping faces
- Moving subjects
- Landscapes
- Portraits
- Night portrait

Advanced operation menus
- Soften backgrounds
- Bring more into focus
- Freeze motion (people)
- Freeze motion (vehicles)
- Show water flowing
- Capture reds in sunsets
- Take bright photos
- Take dark (low key) photos
- Reduce blur
Soften backgrounds

- Lens: AF-S DX Micro NIKKOR 85mm f/3.5G ED VR
- Exposure: (A) mode, 1/250 second, f/3.5
- White balance: Auto
- Sensitivity: ISO 100
- Picture Control: Standard
Scene Modes and other creative options: get the best results for each scene

- Portrait
- Landscape
- Child
- Sports
- Close up
- Night portrait

In addition to Guide Mode assistance, the D3200 offers familiar Scene Modes. Simply select one of the six icons on the mode dial: Portrait, Landscape, Child, Sports, Close up or Night portrait. Instantly, the camera is now set to automatically deliver optimal results for your shooting situation. Further creative D-SLR options put aperture and shutter speed under your control, either combined — P (programmed auto), individually — S (shutter-priority auto) and A (aperture-priority auto), or independently — M (manual).

Excellent results for almost any subject

Live view shooting convenience: Scene Auto Selector instantly selects settings to match a scene

- AUTO
- Portrait
- Landscape
- Auto (flash off)
- Close up
- Night portrait

If you are taking still pictures using D3200's “live view” monitor and are using the Auto or Auto (flash off) functions, the Scene Auto Selector** can automatically select the most appropriate set-up from a choice of options: Portrait, Landscape, Close up and Night portrait. The D3200 self-configures to ensure optimum results, leaving you more time to concentrate on composition.

* Selected when the camera identifies situations not covered by Portrait, Landscape, Close up or Night portrait mode, or for scenes suited to Auto or Auto (flash off).

** When using autofocus (AF).
Even when they’re part of the action

Live view for easy operation and sharp focus
D-SLR shooting is easy with “live view.” Whether taking stills or recording movies, there are four convenient AF-area modes to choose from: face-priority AF, wide-area AF, normal-area AF and subject-tracking AF. The combination of subject-tracking AF and full-time-servo AF (AF-F) maintains the focus point as the action progresses.

Still photography with faster response: the optical viewfinder
D-SLR cameras are noted for showing exactly what the lens is seeing. Use of the viewfinder offers more stability, a clearer view and more precise composition for landscape, portrait and still life photography — advantages that enable you to better capture images at the right moment.

Reliable, accurate and responsive autofocus: 11-point AF system
When taking pictures through the optical viewfinder, the 11-point AF system quickly and precisely detects your subject. To ensure rapid and accurate autofocusing, choose auto-area AF and let the Scene Recognition System keep your subject sharp automatically. Choose dynamic-area AF* or 3D-tracking (11 points)* to capture fast-moving subjects or to change your composition freely while keeping the subject in sharp focus. If you want a specific area of your subject to stay sharp, choose single-point AF.

*When focus mode is continuous-servo AF (AF-C) or auto AF-S/AF-C selection (AF-A).

Be confident of capturing the moment: continuous shooting at approx. 4 frames per second
The movement, position and expression of your subject can be unpredictable, and you may never know exactly when a definitive moment might happen. For times like these, the D3200 offers a frame rate of approx. 4 frames per second, allowing a burst of images to capture a decisive moment during sporting events and when taking pictures of elusive pets or children at play with full autofocus performance.
**Fine-tune your creative vision before taking the shot**

**Active D-Lighting: more detail in extreme lighting**
Automatically reveal detail in the dark and light parts of high-contrast scenes and capture images that appear closer to how your eyes see them. Leave Active D-Lighting on for hands-free operation.

**Your images, your taste: Picture Control**
Adjust the tonality and character of your pictures and Full HD movies to create a more personal touch. Six settings are available: Standard, Neutral, Vivid, Monochrome, Portrait and Landscape. In addition, you can manually adjust the sharpening, contrast, brightness, saturation and hue to further fine-tune your images to your own satisfaction.

**With Active D-Lighting**

**Without Active D-Lighting**

Nikon’s intelligent built-in flash automatically pops up whenever needed
*When shooting mode is set to Auto, Portrait, Child, Close up or Night portrait.

Extremely easy, stress-free operation with intelligent auto modes

Compact and lightweight for portability and convenience

Nikon Integrated Dust Reduction System for consistently clean and clear pictures

Superb quality NIKKOR lens with built-in VR (Vibration Reduction)

Comfortable camera grip fits naturally in your hands

More ways to enjoy pictures: the Retouch Menu

The D3200 offers a variety of options to finish off your pictures with a personalized look. Popular items such as Resize, Color sketch and Selective color have now been added to the menu.

Other items in the Retouch Menu:
- D-Lighting
- Red-eye correction
- Trim
- Monochrome (Black-and-white, Sepia and Cyanotype)
- Filter effects (Skylight, Warm filter, Red intensifier, Green intensifier, Blue intensifier, Cross screen and Soft)
- Color balance
- Image overlay
- NEF (RAW) processing
- Quick retouch
- Straighten
- Distortion control
- Fisheye
- Color outline
- Perspective control
- Miniature effect
- Edit movie
Tell stories easily — See the Full HD movie difference for yourself

Incredible movie recording at your fingertips: Full HD movies (1,920 x 1,080/30p)

The D3200 is not limited to taking outstanding still pictures. It also delivers outstanding D-Movie performance with Full HD movie capability. Together with D-SLR advantages such as beautiful bokeh (background blur), great low-light performance and extensive compatibility with the NIKKOR lens range, making your own movies has just become easier and more creative than ever before. The features of “live view” autofocus like full-time-servo AF (AF-F) and subject-tracking AF are completely compatible when recording D-Movies, so your subject will stay in sharp focus, even when in motion. Face-priority AF is also available during D-Movie, which means you can stop worrying about focusing on faces and enjoy movie recording. The D3200 also records sound and comes equipped with in-camera editing functions, giving you movie production potential.
Known for its reliability, clarity and devotion to the needs of passionate photographers, Nikon’s exclusive lens brand NIKKOR has come to represent the finest optics in the world. Join the community and share a love of great photography with photographers across the globe.

Incredible images and movies start with incredible NIKKOR lenses

**AF-S DX NIKKOR 35mm f/1.8G**
Compact prime lenses like this one deliver beautiful background blur in portraits, as well as sharp handheld pictures — even in low light.

**AF-S DX NIKKOR 55-300mm f/4.5-5.6G ED VR**
This powerful super-telephoto zoom with Vibration Reduction (VR II) lets you get close to distant subjects while shooting handheld. The strong compression effect makes for dynamic images. Great for sports and wildlife.

**AF-S DX Micro NIKKOR 40mm f/2.8G**
A compact micro lens designed to capture small subjects at close distances, featuring a large maximum aperture of f/2.8. This is ideal for life-size (1x) close-ups and is also suitable for portraits and landscapes as a standard lens.

**NIKKOR**

**NIKKOR lenses incorporate the VR function within the lens rather than within the camera body. This ensures that blur caused by camera shake is corrected in the optical path before it reaches the sensor, leading to clearer images and faster response. Furthermore, the image in the viewfinder is stabilized, allowing easier and more accurate composition.**
**Wireless camera control via smart devices**

Connecting the optional WU-1a Wireless Mobile Adapter to the D3200 allows you to take pictures and then send them wirelessly to a Wi-Fi equipped smart device* such as smartphone or tablet — a quick and easy way to share your images via social networking services (SNS) or e-mail. You can even release the D3200’s shutter from the smart device, as well.

* Dedicated application is required. The application can be downloaded from the Google Play Store (free). Compatible OSs: Android 2.3 series (smartphone), Android 3.x series (tablet).

**ViewNX 2 (supplied) — Your Imaging Toolbox**

ViewNX 2 is the convenient way to manage images on your computer, with useful functions for storing, browsing, editing and sharing both photos and movies. Labels can be attached to images, facilitating faster searches later on. This bundled software also offers a wide range of editing functions, including rotate, resize, crop, straighten, auto red-eye correction and more.

**my Pictetown — smart photo sharing and storage service**

Nikon’s own image-sharing website, my Pictetown, allows you to easily save, organize and share your images with family and friends worldwide. Membership is free and permits storage of up to 2 GB of photos and/or movies. For an additional fee, you can expand your online storage space to 200 GB*. Also compatible with some smart devices.

* Fees and availability may vary by country.

**Controls neatly arranged for easy operation**

1. Mode dial
2. Movie-record button
3. Information button
4. Exposure compensation button/Adjusting aperture button/Flash compensation button

Nikon Speedlights — simply brilliant

The D3200 comes equipped with a convenient built-in pop-up flash, but with optional Speedlights, inspired flash photography becomes even easier and more creative. The compact and lightweight SB-400 delivers intelligent through-the-lens (i-TTL) flash control and bounce flash capability for a more natural lighting effect without strong shadows. The multifunctional SB-700 offers the exciting potential of wireless multiple-flash operation via the Nikon Creative Lighting System.

System chart

**VIEWFINDER ACCESSORIES**
- DK-20C Eyepiece Connection Lenses (5 m to 3 m)
- DK-22 Eyepiece Adapter
- DK-5 Eyepiece Cap
- DK-20 Rubber eyecup

Nikon Digital SLR Camera D3200 Specifications

Type
Single lens reflex digital camera

Effective pixels
24.2 million

Image sensor
3.264 million pixels CMOS sensor

Dust-reduction system
Image Dust Off reference data (optional: Capture NX 2 software required)

File format
NEF (RAW), JPEG, NEF (RAW) + JPEG

Picture Control System
Standard, Neutral, Portrait, Landscape, Monochrome; selected Picture Control

Image size (pixels)
6,016 × 4,000 (L), 4,512 × 3,000 (M), 3,008 × 2,000 (S)

Flash sync speed
X=1/200 s; synchronizes with shutter at 1/200 s or slower

AF-area mode
Single-point AF, dynamic-area AF, 3D-tracking (11 points)

Focus lock
Focus can be locked by pressing shutter-release button halfway (single-served AF) or by pressing AF-ON button

Flash
Built-in flash
Auto, redeye, red-eye, red-eye reduction, manual, rear-curtain sync, slow sync, red-eye reduction, slow-sync flash

Guide number
Approx. 39/12, 43/13 with manual flash (ft/m, ISO 100, 68°F/20°C)

Flash compensation
-3 to +1 EV in increments of 1/3 EV

Built-in flash
Auto, redeye, red-eye, red-eye reduction, manual, rear-curtain sync, slow sync, red-eye reduction, slow-sync flash, red-eye reduction, rear-curtain sync, red-eye reduction

Flash sync terminal
AS-15 Sync Terminal Adapter (available separately)

Accessories
AF-80 Teleconverter, Camera Case, Camera Strap, CS-200 Camera Bag, CS-200i Camera Case, CF-600 Flash Case

AF point coverage
Approx. 95% horizontal and 95% vertical

AF sensitivity
-5 to +5 EV in increments of 1/3 EV

Autofocus
Nikon Multi-CAM 1000 autofocus sensor module with TTL phase detection, 11 focus points (including one cross-type sensor) and AI-Assist illuminator

Exposure meter coupling
Range (ISO 100, f/1.4 lens, 68°F/20°C) • Matrix or center-weighted metering: 0 to 20 EV • Spot metering: 2 to 20 EV

Release mode
Immediately releases the shutter, 2 s, 10 s, self-timer, 2 s, 5 s, 10 s, 20 s, 1 s, 10 s, 30 s, 60 s, 20 s, 10 s, 30 s, 60 s

Exposure meter coupling
Range (ISO 100, f/1.4 lens, 68°F/20°C) • Matrix or center-weighted metering: 0 to 20 EV • Spot metering: 2 to 20 EV

AF Servo
• Autofocus (AF): Single-servo AF (AF-S); continuous-servo AF (AF-C); auto; AF-S/AF-C: selection

White balance
Auto, incandescent, fluorescent (7 types), direct sunlight, flash, cloudy, shade, manual, custom

Internal memory
Approx. 2 MB

File format
MOV

Video
Operating environment
Temperature 32 to 104°F/0 to 40°C

Audio input
Stereo mini-jack (3 mm diameter)

Dimensions/weight
Approx. 5.0 × 3.8 × 3.1 in./125 × 96 × 76.5 mm (with accessories), 5.1 oz./145 g (body only)

Power source
En-EL14a Rechargeable Li-ion battery

Battery charger
MH-24 Battery Charger, MH-24 Battery Charger (available separately)

Tripod socket
1/4 × 55” (ISO 1222)

Supported languages
Arabic, Chinese (Simplified and Traditional), Czech, Danish, Dutch, English, Finnish, French, German, Greek, Hindi, Hungarian, Indonesian, Italian, Japanese, Korean, Norwegian, Polish, Portuguese (Portugal and Brazil), Russian, Spanish, Swedish, Thai, Turkish, Ukrainian

Dimensions/weight
Approx. 5.1 × 3.8 × 2.3 in./130 × 97 × 60 mm

Weight
Approx. 11.8 oz. (334 g) without body, battery, and memory card

Accessories
Supplied accessories (with battery and memory card) but without body cap, approx. 11.4 oz. (326 g) (body only)

Software
Microsoft Windows and Macintosh
