Open Door

Battery latch

Memory card slot

Airplane mode OFF

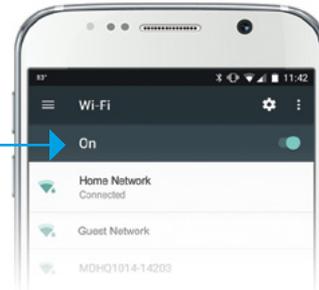

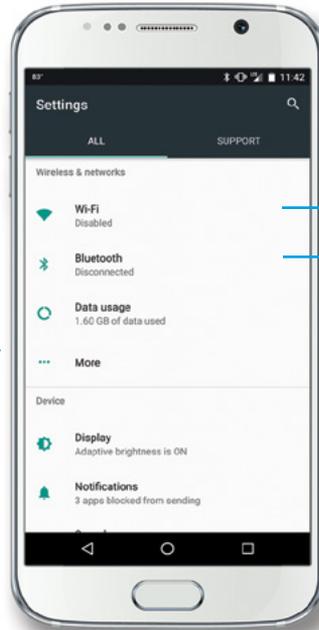

Close Door

SMART DEVICE:

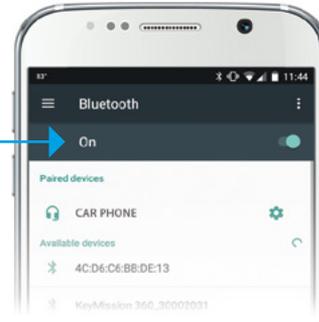

# Check Smart Device Settings

MAKE SURE... • **Wi-Fi**® setting is ON • **Bluetooth** setting is ON

Go to  
"Settings"  
on your  
smart  
device

Make sure  
Wi-Fi is ON

Make sure  
Bluetooth is ON

For latest firmware and app information [www.nikonusa.com](http://www.nikonusa.com)

APP DOWNLOAD:

# Download SnapBridge 360/170 App

- Go to the **Google Play™ Store** on your smart device
- Search for **SnapBridge 360/170** and select correct app
- **Download and Install** SnapBridge 360/170
- Go back to your home screen and **click on app**

Download / Install  
SnapBridge 360/170 App

## BLUETOOTH PAIRING:

# Pairing the Camera

### ON YOUR SMART DEVICE

Launch **SnapBridge 360/170** on your smart device

### ON YOUR CAMERA

**Press and Hold** movie button until the green status lamps flash **simultaneously**...

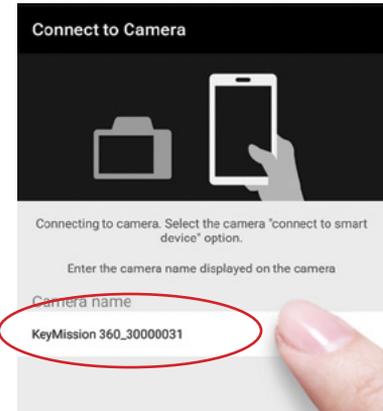

...then flash **alternately**.

*When that happens, camera is in pairing standby mode.*

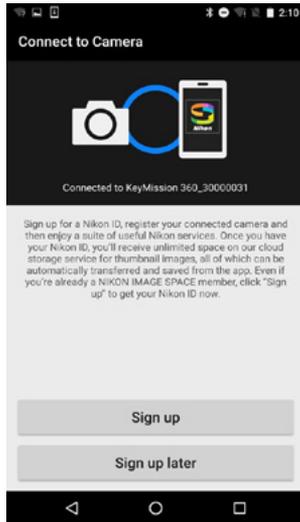

### ON YOUR SMART DEVICE

Tap the camera name when it appears. The camera and phone will pair automatically.

**Note: Only pair the camera using the Snapbridge 360/170 app (Do not try and pair from device Bluetooth setting!)**

- 1 You can either choose to continue as a guest or sign up for a Nikon ID. After you have done this, you will be taken back to the Connect tab.

- 2 Now that the Bluetooth® is paired, this is the screen you will see.

*This symbol means you are paired with Bluetooth*

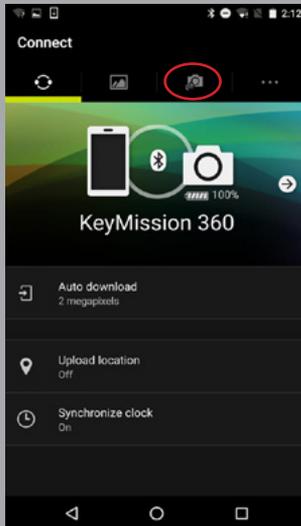

If you need to un-pair and re-pair your Android powered device and the KeyMission 360 camera, read this article for detailed instructions on how to do so. Go to [www.nikon.usa/keymission360](http://www.nikon.usa/keymission360)

# REMOTE PHOTOGRAPHY:

If you want to shoot remotely or download stills or videos, you will need to connect to the camera's Wi-Fi between the KeyMission 360 camera and the SnapBridge 360/170 app.

Make sure to turn on Wi-Fi in the Wi-Fi settings of your smart device

**1** Select the **Camera** icon on the app.

**Connect**  
Camera and Smartphone connection settings

**2** Tap **Remote photography**.

**Gallery**  
View, share, edit, and delete downloaded images

**Remote Photography**  
Shoot stills and video remotely, download images, and adjust camera settings

**Other**  
Add/edit image credits, view notices from Nikon, and app instructions

**3** After switching to your Camera's Wi-Fi signal, the Remote Photography **Live View** screen opens.

You will see a "live view" of what your camera sees. This is a low resolution view and not indicative of the video quality

Still Photos

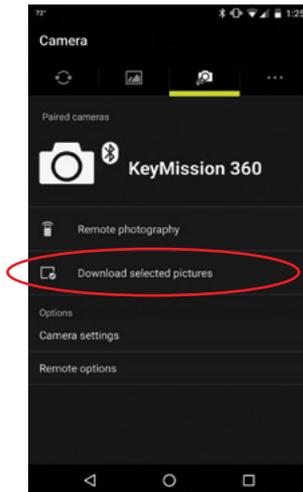

Video Record

Camera Setting

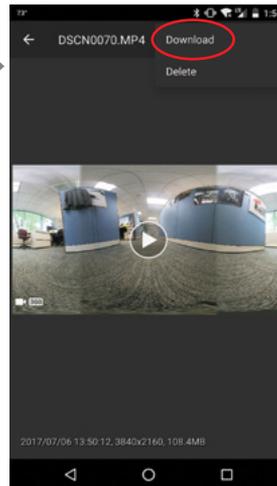

## DOWNLOADING:

# Downloading Videos / Stills

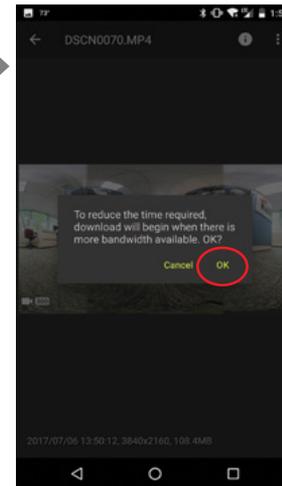

- 1 Navigate to the Camera Tab and Select **'Download Selected Pictures'**

- 2 Select the video you want to download and press **'Download'** to download it to your device

- 3 You may see the following prompt: ***'To reduce the time required, download will begin when there is more bandwidth available. OK?'*** If you see this, just press **'OK'** and your download will begin

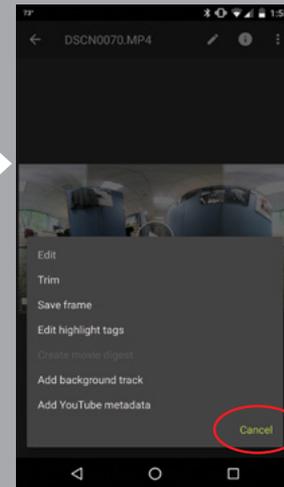

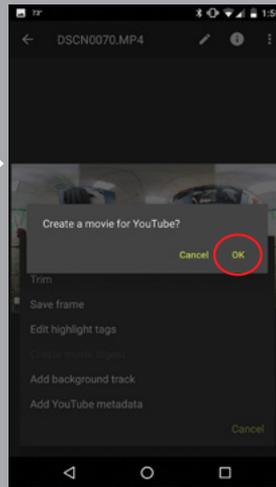

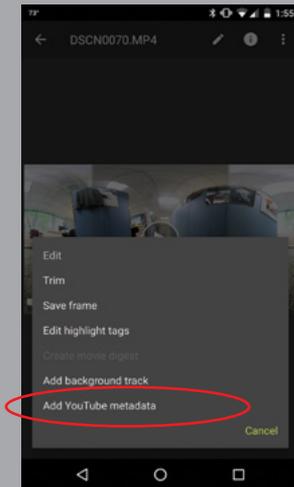

SHARING:

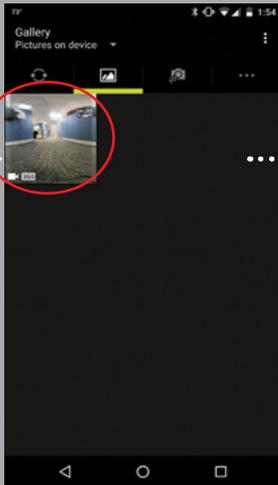

# Saving videos for YouTube™ & Facebook®

**1** Select the edit icon and choose **'Add YouTube metadata'**

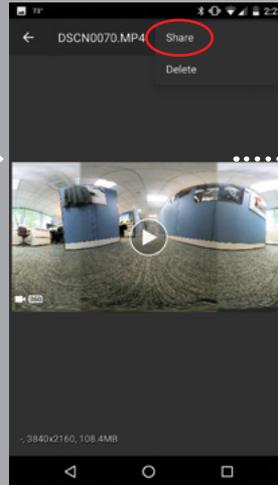

**2** When the edit screen returns, press **'Cancel'**

- 3** Return to the gallery and **select the file** that now has the YouTube metadata added.

- 4** Press the **'Share'** button and choose Facebook® or YouTube™

- 5** Follow instructions in Facebook® or YouTube™ to upload and show your movies or photos.

#### ± WI-FI COMPATIBILITY

This camera's built-in Wi-Fi® capability can only be used with a compatible iPhone®, iPad®, and/or iPod touch® or smart devices running on the Android™ operating system. The Nikon SnapBridge 360/170 application must be installed on the device before it can be used with this camera.

#### System Requirements

Android 5.0 or later or 6.0.1 or later. Android 7 or later is not supported (an update will be issued when compatibility has been confirmed. There is no guarantee that this app will run on all Android devices). iOS 8.4 or later, iOS 9.1 or later (latest version of iOS 8 or iOS 9 recommended) plus iOS 10.2 for KeyMission 360. The KeyMission 360 firmware must be updated to ensure compatibility with iOS 10.2. A device with Bluetooth 4.0 or later (i.e., a device that supports Bluetooth Smart Ready/Low Energy) is required. There is no guarantee that this app will run on all devices.
